CAPABILITIES STATEMENT

Founded in 1993, Central Trading Agency, Inc. has a long history of reducing procurement expenses and improving procurement cycle times. We help companies reduce total cost of procurement activity by up to 30% while expediting the procurement process.

We specialize in the procurement of MRO and industrial commodities within the aerospace and manufacturing industries. Lowest pricing, unlimited sourcing, lightning fast response time, ability to handle any RFQ, and expedited deliveries has earned us **The 2016 Silver Boeing Performance Excellence Award.**

CORE COMPETENCIES

We have completed over 50,000 orders for our aerospace customers. Our experience combined with intelligence (data) built over 20 years by daily hands-on vendor interactions makes the difference.

1. Reducing the cost of goods through our relationship with over 3,000 vendors
2. Reduce supplier base with our unlimited sourcing capability, domestic and int'l.
3. Reduce risk by transferring to 3rd party
4. Decrease overhead cost /time on low value, obsolete and hard to find items
5. Reduce costly downtime and manufacturing cycle time with expedited deliveries
6. On time deliveries – going the extra mile to make sure the “last mile of procurement” is realized
7. Working on your behalf to solve vendor issues and getting suppliers to do what they say they will do!
8. Attention to detail is the critical element to flawless order execution, preventing costly procurement mistakes

Unlike other distributors our range is virtually unlimited both in commodity category and vendor selection, both domestic and international. We are not tied down to any one supplier. This enables us find the most competitive pricing and shortest lead time on any request. We have been owner-operated since our inception. Our team is your team. When orders are placed with us there is peace of mind knowing orders will be delivered accurately and on time, boosting the achievements of procurement departments and company profits.

Central Trading Agency offers products from hundreds of the industry's top manufacturers. We supply not only the products you are currently purchasing but also source effectively any new or difficult requirement. RFQ's can be submitted to us anytime for any item, any quantity.
